Email: meerkareem581@gmail.com

As a versatile Full Stack Developer with comprehensive expertise in HTML, CSS, JavaScript, jQuery, PHP, Symfony, Python, Django, Django REST Framework (DRF), SQL, MySQL, Firebase, MongoDB, C#, and .NET Core MVC, AWS, I am dedicated to delivering robust and scalable web applications and Mobile Apps using Flutter. My goal is to leverage my extensive technical skill set and three years of professional experience to contribute effectively to a dynamic team, driving innovation and excellence in software development projects.

EXPERIENCE

Wize Consultancy
Aug 2022 to Dec 2022

Php Developer

Responsibilities and Achievements:

- Developed dynamic web applications using PHP, MySQL, HTML, CSS, and JavaScript.
- Implemented responsive design principles with Bootstrap framework to ensure optimal viewing experience across devices.
- Utilized JavaScript and jQuery for enhanced interactivity and user experience.
- Collaborated with team members to design and develop database architecture and optimize queries for improved performance.
- Successfully delivered within deadlines, contributing to client satisfaction and project success.

Awesome technologies
Jan 2023 to Apr 2023

Dot Net Developer

Responsibilities and Achievements:

- Gained hands-on experience with .NET technologies including WinForms and .NET MVC framework.
- Worked with MySQL and SQL databases to manage and manipulate data effectively.
- Collaborated with team members to develop and maintain software applications, adhering to coding standards and best practices.
- Contributed to the development of under the guidance of senior developers.

Alamar Foods
jan 2024 to Onward

Software Engineer - Backend

Responsibilities and Achievements:

- Engage in backend development utilizing Python, PHP, and frameworks such as Symfony and Django.
- Architect and maintain database systems using MySQL and SQL, ensuring efficiency and reliability.
- Implement containerization using Docker for seamless deployment and scalability.
- Utilize AWS services including AWS VPN, AWS Lambda, and AWS Console for cloud infrastructure management.
- Collaborate with cross-functional teams to develop and deploy applications on AWS, ensuring high availability and performance.
- Employ version control with Git and GitHub to manage codebase and facilitate collaboration among team members.
- Contribute to the design and implementation of meeting project goals and deadlines effectively.

EDUCATION

Aptech Certified Computer Professional (ACCP)
2024

Advanced Diploma in Software Engineering (ADSE)

Currently completing a 3-year diploma in software engineering, covering advanced topics in software development, systems analysis, database management, and web technologies. This program will equip me with the skills and knowledge required to

excel in the IT industry.

SBTE

2023

Intermediate in Computer Science (ICS)

Completed a comprehensive intermediate program focusing on core principles of computer science, including programming, database management, and web development. Developed a solid foundation in both theoretical and practical aspects of computing, preparing for advanced studies and a career in software development.

The Educators School Quetta

2021

Matriculation

Successfully completed matriculation with a strong academic record, achieving an A grade. Developed a foundational understanding of various subjects, laying the groundwork for further studies in Science.

PYTHON SKILLS

Python,
DRF,
Pandas,
Numpy,
Jupiter Notebook,
Django,
ERPnext

PHP SKILLS

Php,
Symfony

C# SKILLS

C#,
ASP.Net Core MVC,
ADO.net, LINQ,
CRUD, Repository Pattern, Authentication and Authorization

CMS

Wordress

FRONTEND SKILLS

Html,
CSS,
Javascript,
jQuery

DATABASE SKILLS

MySQL
SQL
Firebase
